

A place to pause.
A moment to keep.

Guac + Chips. Three styling collections.
Layouts for a considered corner or a room
to gather.

Choose your look. Find your fit.

A collection preview. Rendered concepts; final details are tailored to your event.

Signature Gallery

Warm taupe drapery, burgundy textiles, and antique brass accents. A gallery-inspired setting that feels at home throughout the year.

A NATURAL FIT FOR

Weddings and birthdays
Corporate events
Galas and fundraisers

THE DETAILS

Fine-art still-life signage
Warm picture lighting
Understated styling

Choose this look. Then choose the layout that fits your venue.

Styling and layout are separate choices. Seasonal details adapt to the available space.

Rendered styling concept. Camera, digital sharing and print details are confirmed with your inquiry.

Holiday Gallery

Evergreen velvet, warm lights, and burgundy ribbon bring a festive layer to the Gallery setting. The details can lean seasonal or Christmas-specific.

A NATURAL FIT FOR

Company holiday parties
Client appreciation
Christmas celebrations

THE DETAILS

Winter still-life artwork
Evergreen and brass accents
Details chosen with your host

Gallery After Dark

Near-black velvet, a touch of gold fringe, and dramatic artwork create a setting for an evening with a little more theatre.

A NATURAL FIT FOR

Masquerades and Halloween
New Year's Eve
Evening galas

THE DETAILS

Moody portrait-inspired artwork
Burgundy accent lighting
Optional masquerade details

Good things happen in all kinds of spaces.

The same Guac + Chips experience, with decor and guest flow scaled to your room.

COMPACT

6 x 7 ft

INSTALLATION

6 x 10 ft with clear front space

One group at a time. A shared entry and exit lane, a small rug, and miniature framed artwork.

MEDIUM

10 x 10 ft

INSTALLATION

10 x 13 ft with clear front space

Separate entry and exit lanes, an illuminated easel, a compact prop table, and rope accents.

LARGE

14 x 12 ft

INSTALLATION

14 x 15 ft with clear front space

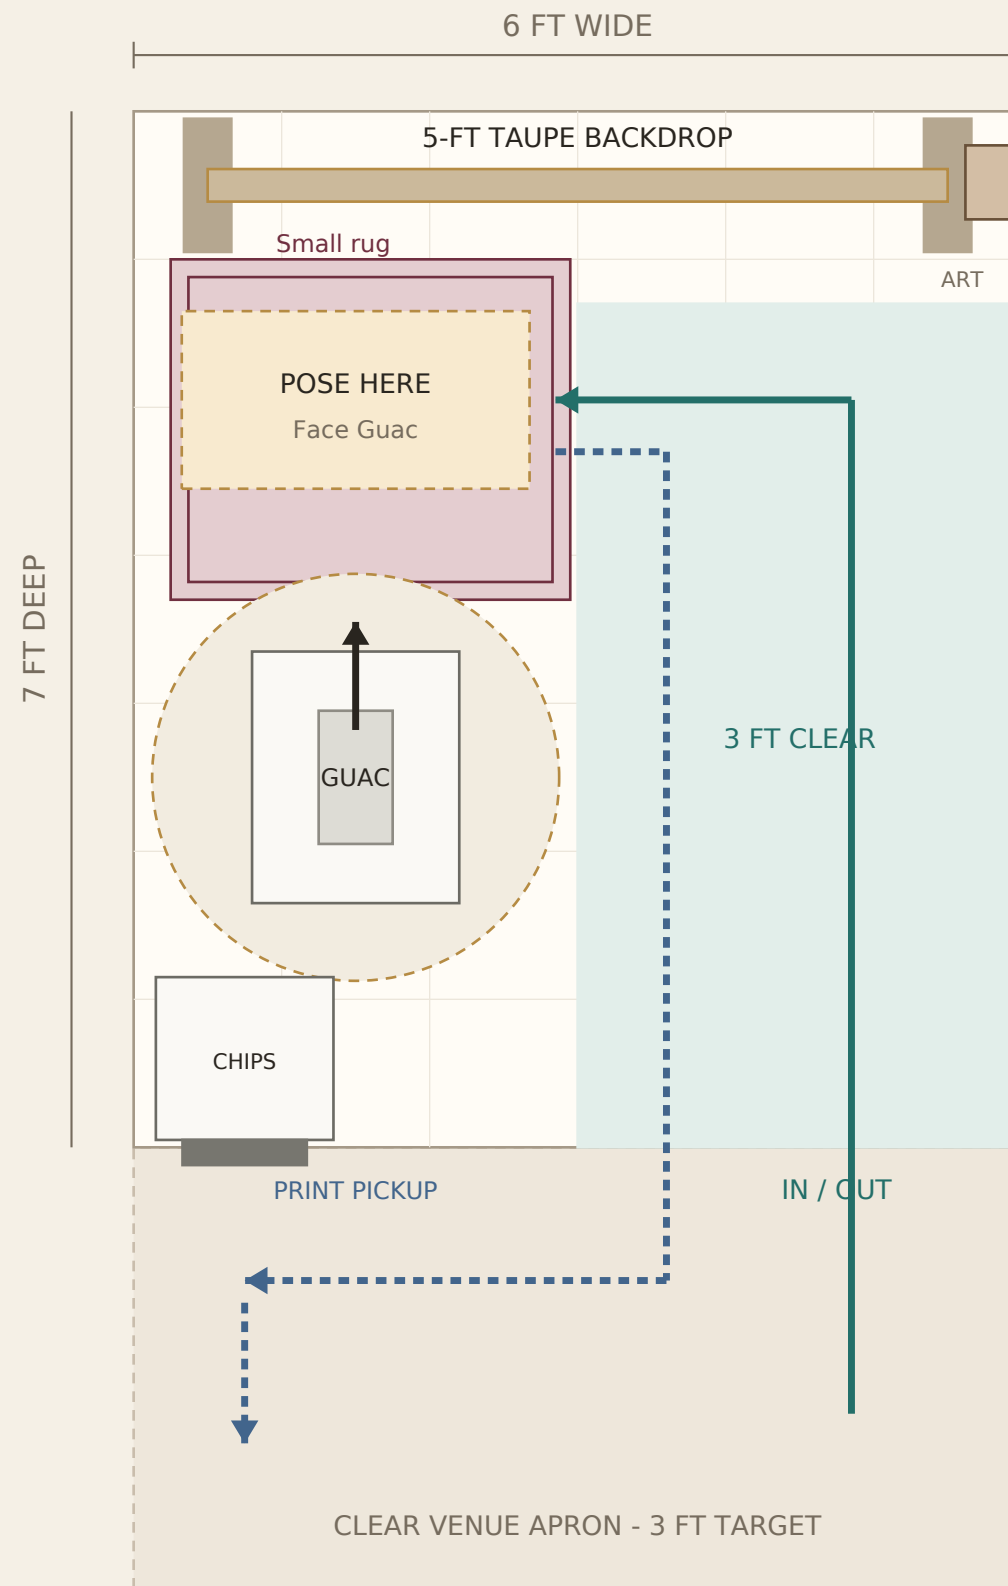

Separate guest routes, a wider setting, expanded decor, and a dedicated print-pickup area.

Planning estimates, not guaranteed minimums. Each working measurement includes a 3-ft clear front apron. Waiting space is additional. We will confirm equipment fit, ceiling clearance and venue access before your event.

Let's find your fit.

Bring your date, venue, and preferred collection. We will shape the details.

thegallery.events

ONE GROUP AT A TIME

6 x 7 ft

Installation footprint

01 Enter from the right

Keep the right-hand 3-ft strip free. Guests move up the shared lane and step left into the posing area.

02 Return on the same lane

Finish the photo, return to the front, then collect prints from Chips. Admit the next group after the lane clears.

03 Keep the floor simple

No table, easel or stanchions. Secure the miniature frame to the backdrop support, subject to the support load rating.

Space to reserve

6 x 7 ft installation + a 6 x 3 ft clear front apron = 6 x 10 ft working envelope. Waiting guests remain outside this area.

READING THIS PLAN

- Solid arrow: arrival / entry
- - - Dashed arrow: return / exit

Gold dashed circle: umbrella projection overhead. White rectangles: equipment base allowances. Pale green: clear circulation lane.

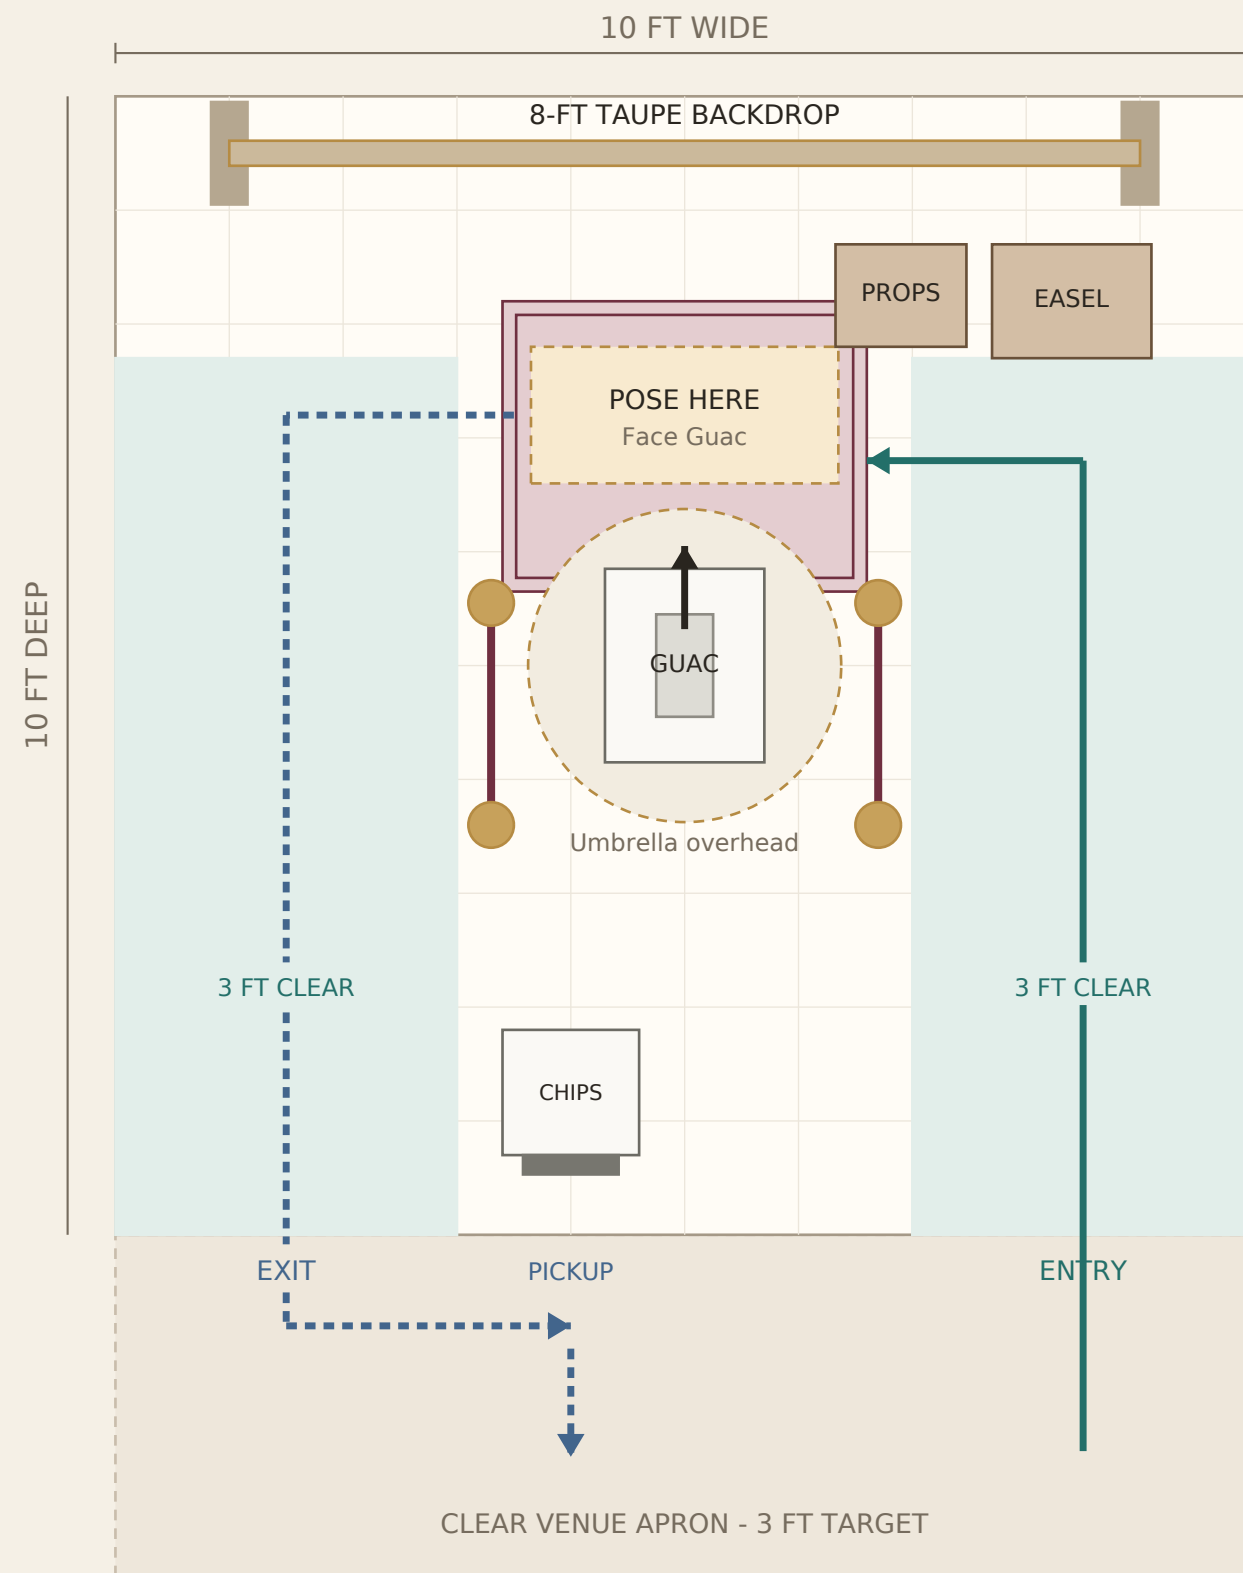

PLANNING DRAWING / 1-FT GRID

Footprints and routes are design targets, not verified installation dimensions. Equipment bases, support feet and furniture are schematic allowances; measure actual items and test framing before booking a minimum size.

Keep queues, cable runs and attendant storage out of clear lanes. Use flat secured rugs. The compact shared lane is sequential, not a passing aisle; venue access and turning needs may require a larger footprint.

MEDIUM

Separate entry and exit

RECOMMENDED DEFAULT

10 x 10 ft

Installation footprint

01 Enter on the right

The right-hand 3-ft lane leads past the booth to the posing area. Keep the easel and prop table behind the turn.

02 Exit on the left

After the photo, turn left into the separate 3-ft exit lane. Continue toward the front for print pickup.

03 Collect prints at the front

Chips sits in the equipment zone. Its tray faces the front apron, keeping people waiting for prints out of the entry lane.

Space to reserve

10 x 10 ft installation + a 10 x 3 ft clear front apron = 10 x 13 ft working envelope. Queue outside the apron.

Keep queues, cable runs and attendant storage out of clear lanes. Use flat secured rugs. The compact shared lane is sequential, not a passing aisle; venue access and turning needs may require a larger footprint.

LARGE

Separate routes + pickup bay

MORE ROOM TO CIRCULATE

14 x 12 ft

Installation footprint

01 Enter on the right

A dedicated 3-ft perimeter lane brings guests to the posing area. Keep all decor on the inner side of the lane.

02 Exit toward pickup

Guests leave on the left, then turn into the front pickup bay. The entry route stays independent.

03 Give prints their own space

Chips and a small landing table form a pickup station. Keep the area in front of the tray clear; queue outside the setup.

Space to reserve

14 x 12 ft installation + a 14 x 3 ft clear front apron = 14 x 15 ft working envelope. Additional queue area is separate.

READING THIS PLAN
